

Parkour Adventure park – Patio Tough Sport

Rawson Carpet Solutions provide **Patio Tough Sport**, a synthetic surface solution for heavy use outdoor sport and play areas with extra high UV resistance of 450 Kilo Langley's. The surface comes in a selection of colourways and is exceptionally durable, as can be seen from a recent UK installation at a Parkour course. The base is supported with underlay to meet CFH's necessary with such large structures. Speak to one of our team about our outdoor solutions and the padded supportive backings available for such installations.
